Covid-19 Community Support Plan - Students

ATK Positive (+) student in classroom

Nurse asks the student to stay home until receiving the RT-PCR test result (1-2 days), class continues.

High Risk students close to the ATK+ student stay home until the RT-PCR result of this student comes out.

The student gets treatment and can return back to study on site after at least 14 days and meets the following criteria:

- 1. RT-PCR lab test result negative within 72 hours
- 2. Medical certificate
- 3. 3 Days with no symptoms
- 4. No longer on COVID medications

The Nurse will evaluate and give permission to the student to return to campus.

RT-PCR Negative

without COVID-19 related symptoms

with COVID-19 related symptoms

RT-PCR Positive

Nurse completes a risk assessment and contacts the class teacher (Primary) and Head of Year (Secondary)

High Risk Contact

- Students who work at the same table with a COVID-19 student.
- Students who do not wear a mask and have a conversation with a COVID-19 student within a distance of 1 metre or less for more than 5 minutes.
- Students who do not a wear mask and stay in a closed area with a COVID-19 patient within a distance of 1 metre or less for more than 15 minutes.
- Students who do not wear a mask while being near a COVID-19 patient when he/she coughs or sneezes.
- Students who live with a COVID-19 patient, in the same household. Low Risk Contact
- Students who have close contact with high risk contact students.
- Students who participate in other activities with a COVID-19 patient but do not meet any of the high-risk criteria.

No Risk Contact

• Students who have close contact with a low risk contact person.

Head Nurse Khun Patama: pach@patana.ac.th Tel.(+66)0859065771

The student can come back to class.

The student remains at home and does the retest in another 3 days. If negative, he/she can come back to campus but needs to receive permission from a school nurse.

Inform parents and ask this student group to do home quarantine for 14 days and CSL resumes.

• Primary

If >10% of the class is considered high risk, then the class closes for 3 days, CSL resumes.

Secondary

If >10% of the Year group is considered high risk, then the Year group closes for 3 days, CSL resumes.

Continue to study onsite
