

Parks our kids love

West Fraser Timber Park

This park boasts a new playground with structures for all ages, four softball diamonds, one baseball diamond, a lawn bowling facility, the Nature Education Centre, four tennis courts, a sand volleyball court, an outdoor gym, a system of hiking trails and a picturesque pond that's great for bird watching. You might catch a glimpse of deer, fox, rabbits and tadpoles too!

South Quesnel Park

Inspired by nature, this playground is unlike any other with its unique climbing structures, boulders and a charming cabin-like playhouse situated amongst a majestic green forest. Venture off into the woods on the nature trail located behind the playground for a short walk or nature scavenger hunt.

Accessible Playground & Bike Park

A community treasure. Our accessible playground was a community project that took over three years of fundraising to achieve! Children of all abilities and ages are welcome to join in the fun with no exceptions!

Adventure Skills Bike Park

Bring your bikes! This park has terrain for all levels from young beginners to highly skilled riders including a freestyle section, pump track and kid's area. Helmets are mandatory and protective gear recommended.

Parks our kids love

LeBourdais Park & Spray Park

Structures for toddlers to teens with built in trampolines! This playground is neighbour to Quesnel's beloved spray park; great for cooling off on hot summer days. Lots of green space to run, fly a kite or throw a frisbee and only a short distance from downtown shopping, cafés and restaurants.

Skateboard Park

Our upgraded skateboard park is street-skater-style with long lines, ledges, benches and manual pads to perfect and master technical riding. Don't forget your helmet!

This park is situated in green space with shaded areas, backing onto Baker Creek where you can cool off and enjoy the scenery, and it's within walking distance to West Quesnel shopping, cafés and restaurants.

Get me there.
